Large Enrollment at A. S. A. S.

The Appomattox school opened here last week with a full body of young men and women. Addresses of welcome were made by Revs Callaham and East and Prof. Crawley

The faculty for the year is as follows: Prof. L. Crawley, Prof. C. T. Akers, Miss Harriet Claugh, Miss Katherine Lambert, Mrs. Havilah Babcock (supply), Miss Flora Williams, Miss Alice Pace, Miss Gladys Smith, Miss Edmonia Hardy, Mrs. Charlie Caldwell.

The enrollment in the high school is above the average. The senior class appears to be the largest in the history of the school, already 29 having applied for graduation. The boys dormitory is overcrowded, but the attendance of girls is not quite as large as usual. There are a number of pupils from other counties and a number are yet to come, after the crop is harvested.

The work of the school is now well under way and the prospects of another good year looks inviting. The personnel of the student body is good and Prof. Crawley says there seems to be few dead heads or loafers, and that he does not intend to tolerate any of that nature.

Rev. E. F. Burnett, of Green county, has accepted a call to the Baptist field of churches—Hollywood, Rocks, Central and Reedy Spring, provided he can get suitable home for his family here. We would be glad to have Mr. Burnett and his family here and feel that he will be a blessing to us.

Last Wednesday Mr. James Doss lost a large barn of tobacco by fire. It is said the house contained 2800 sticks of tobacco. The fire occurred on the farm of Mr. Eldridge Carson near Spout Spring, and caught from a spark while curing. Some time ago Mr. Fields Smith lost a splendid barn while firing primings. Too much care cannot be exercised in curing the chaffy tobacco this year.

The Southside district Sunday school convention was held as scheduled, last Saturday, at Central Baptist church. In this issue our readers will find the Financial Statement of Appomattox county, the first one to be published for years. The law requires that the statement be published annually, but for some reason the proper officer has neglected to have it done. It is a valuable paper, one that every taxpayer should study and if found erroneous or excessive allowances and appropriations made of your money, steps should be taken to correct same. Keep the paper for future reference.

Quite a number of Appomattox people attended Judge Bundley's court at Farmville yesterday; the occasion being a habeas corpus proceeding by H. A. Odor to obtain possession of his 2 year old son, which is detained by his wife in Accomac county. The Judge decided that the baby was too young to take from its mother. No other question was considered by the Judge. Messrs. Hutcheson and Daughtery of Accomac, and S. L. Ferguson of Appomattox, appeared for defense and A. H. Clement for plaintiff.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c.

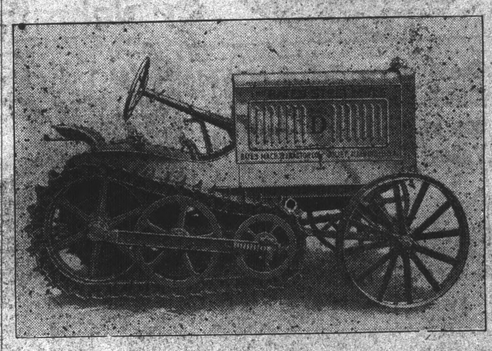
Every Inch of the Bates Steel Mule is Thoroughbred



The United States government by means of the Department of Agriculture, has been looking into the tractor question, and its bulletins clearly proves that the satisfied tractor owner—men who say that the tractor has paid—are men who own the BETTER CLASS of tractors. The successful man has learned years ago that he can't get something for nothing. No one can. The reason the BATES STEEL MULE costs more is that it is worth more. Skilled factory procedure, quantity production and the most modern Machinery enables us to save money at every turn, yet the BATES STEEL MULE cost slightly more in the beginning to build but considerably less in the long run to own. It's just another case where a seemingly higher priced article is ar cheapest to own when you come to actually USE it.

The Bates thoroughbred quality comes not from mere claims, but from what's put into it. Every part that goes to make up the BATES STEEL Mule is put there by long field experience. There is'nt a part that is'nt time-tried and tested. There is'nt a part that experience has'nt dictated the shape and size of; and in it all there is'nt one superfluous part, nor one part that isn't capable of standing up under twice the strain it gets in actual use. These are things experience and practice have distracted. The BATES comes to you as a tulfil'ment of your desire for a tractor that will endure. Price is what we pay for a thing. Value is what we get out of it. Consider your tractor from what you will get out of it, consider how many working days you have when the ground is wet, consider the operations where you can not afford to pack your seed bed, and consider how constantly and economically they must be performed even in rush times, you will then see why the BATES STEEL MULE is the biggest value offerd in any tractor on the American market today.
